## **BACKGROUND**

Seka arrived in England in April 1989. She is a graduate of Economics from Sarajevo University, and has become celebrated as a Bio-Energy practitioner not only in Europe, but throughout the world. Seka's healing abilities were measured by the 'Scientific Institute for Bio-Energy Research' in Milan. Her Bio-energy levels were found to be the highest ever recorded.

Seka's enlightening first book 'You Can Heal Yourself' has since been translated into French and Portuguese.

With now over 20's years of experience she treats private clients at her 'Centre for Bio-Energy Treatment' 3 Rosemont Rd, London NW3 6NG.

Seka is widely referred by doctors, G.P's and specialists for M.E / CFS sufferers, cancer patients, sports injuries, emotional problems, allergies and much more.

## **TREATMENT**

By passing her hands over the body, Seka can feel hot pain when diagnosing disease. She immediately recognises whether each organ in the body is healthy or impaired.

Seka believes that wellness and illness are set by energetic frequency relationships within us, which resonate *more* or *less* coherently. For her, the task of healing is one of balancing those structural levels within the individual.

## **TESTIMONIALS**
